MiniCIP MagMixer™

Newest Addition to LIGHTNIN's SanStar Line of Sanitary Mixers

The LIGHTNIN MiniCIP is designated for smaller lab, pilot, and production vessels. This new mixer is perfect for the laboratory environment where cleanliness and ease of use is mandatory. The new design will allow the user to easily remove the drive and either sterilize and/or autoclave the entire tank without removing the mixer.

This small mixer offers a variety of features for the BioPharm market due to its unique design

- One MiniCIP drive can be used for multiple vessels
- Simple Design
- Washdown duty motor assembly, 1 1/2" Triclover connection
- Small foot print, 3" diameter x 11" tall
- 100% CIP - SIP capable
- Seal-less design, magnetic coupling
- Patented dry running bearings are USP Class VI certified
- 316L construction, 15Ra electro polished wetted parts standard
- Optional materials of construction
- Non-flushed, autoclave design available
- Removable drive, lightweight <10 lbs; use with multiple lower assemblies
- Patented design
- Sanitary or flange mount
- Compatible with LIGHTNIN's spectrum of impellers
- Speed variable 0-500 RPM with panel controller
- Gear motor - 24 VDC

Allows use of one drive with many lower assemblies.

Unique patented twist lock design allows the drive to be removed before autoclaving.

Worldwide commitment: International certification

These products can be CE marked for the European Community.
